

The Owner / Occupier

Our Ref: SfC/TDD/N/MO'M/02

Date: 07th December 2017

Dear Sir / Madam

TYPE OF WORKS: CARRIGEWAY RENEWAL
LOCATION: GREAT JUNCTION STREET
ESTIMATED START DATE: 8th January 2018

General Details

As part of an investment in Edinburgh's roads and footways for 2017/18, the carriageway on Great Junction Street will be resurfaced. The carriageway has been prioritised because of their current condition, and the works will improve both travelling experience and visual appearance of the surface. This work is scheduled to commence on Monday 8th January 2018 and will last approximately 4 weeks depending on weather and other circumstances. The actual start date and works duration will be confirmed on notices erected in the street prior to works starting.

Road use during the Works

To allow for the safe execution of the works a temporary traffic regulation order (TTRO) has been promoted to suspend parking and impose road closures.

Vehicular traffic on Great Junction Street will be restricted to Northbound traffic only in order for the works to be carried out safely.

To facilitate this the following closures will be in place:

- Great Junction Street from the Bonnington Road junction to North Junction Street/Ferry Road Junction to all vehicular traffic travelling south towards the foot of Leith Walk. North bound traffic towards North Junction Street will be maintained for the duration of the construction phase.
- Cables Wynd from Yardheads to Great Junction Street will also be closed for the duration of the construction phase.

The diversion route for south bound traffic that would normally travel along Great Junction Street is via Coburg Street, Sandport Place and Henderson Street, to arrive back at Great Junction Street.

Traffic will be managed in and out of Mill Lane, Taylor Gardens and Ballantyne Road by the contractor. There will be left turn only policy for traffic exiting Bonnington Road, Bangor Road

Marcus O'Mara, Technician, Transport Design & Delivery, Place

and Ballantyne Road for the duration of the works. There will be a Right turn only policy for traffic exiting Taylor Gardens and Mill Lane for the duration of the works.

Parking suspensions will be in place to suspend waiting, loading and unloading on both sides of Great Junction Street from Bonnington Road junction to North Junction Street, Cables Wynd from Yardheads to Great Junction Street, King street in its entirety, 25m west along Bonnington Road from GJS, and Coburgh Street in its entirety.

Operating Times

The Contractor's operating times will be between 0800 - 1700 hours from Monday to Saturday and 1000 - 1630 on Sundays. Where possible, access to residential properties will be maintained outwith these times. Street notice signs will display changes to parking restrictions or access. Please do not park on-street during these times as all vehicles will be removed from the location of the works.

Minimising disruption and noise

Every effort to minimise disruption and noise will be made, but unfortunately some is unavoidable during road works. Your patience is very much appreciated during any delays that occur. Throughout the programme, emergency vehicle and pedestrian access will be maintained.

Customer Feedback

Feedback is welcomed on the performance of this project, and will use this information to help improve our performance on future projects.

I apologise for any inconvenience that these works may cause, but hope you will benefit from the improved street condition in the future. If you require any further information, please contact me using the details shown below.

Yours sincerely

Marcus O'Mara
